H. C. SHARP, Secretary.

There will be three Southern Methodist Conferences held in Kentucky during this month—at Louisville, which began yesterday, Bishop Fitzgerald presiding; at Winchester, the 18th, Bishop Haygood presiding; at Madisonville the 23d, the same Bishop presiding.

## Removal.

Hillery & Co. have moved their mercantile business to the corner of Nelson's Hat Store. Mr. James Small the expert cutter will take pleasure in showing patrons an unexcelled stock of fall and winter piece goods.

## HAPPILY WEDDED.

Mr. Harry Ort and Miss Jennie Gibson Married Yesterday.

The residence of Mr. and Mrs. John B. Gibson was yesterday afternoon the scene of a delightful home wedding, the principals being Mr. Harry A. Ort and Miss Jennie Gibson.

Promptly at 3 o'clock the young couple entered the parlor, where in the presence of relatives and a large number of friends they were united for life by the Rev. T. W. Watts of the M. E. Church, South.

The attendants were Mr. Ernest Ort, brother of the groom, and Miss Mary Gibson, sister of the bride, and Miss Cora Ort, sister of the groom, and Miss Maud Walsh.

The bride is the eldest daughter of Mr. John B. Gibson, the veteran manager of the Western Union Telegraph office, a young lady of rare qualities, fit to possess the affection and to adorn the home of any man.

She was attired in a handsome street costume of silk.

The fortunate groom is the eldest son of Mr. Henry Ort, the extensive furniture dealer, a most industrious and worthy young man, and he is certainly to be congratulated on having won such a noble woman for his life partner.

The presents were many, and they were not only beautiful but they were useful as well.

After a brief time spent in receiving the congratulations and well wishes of friends, Mr. and Mrs. Ort took the train for Cincinnati, and after a short stay there they will visit Mr. Ort's relatives in Southern Ohio, returning here in about one week.

## STRAY SHOTS.

What Baseballists are Doing All Around and About Us.

Driftwood Gathered and Split for Ledger Patrons.

The last games of West vs East will be closed next Tuesday.

Comeisky will take his St. Paul team to California immediately after the close of the Western League.

"Ducky" Holmes is proving a great find for Louisville. He fits into almost any position and is batting well.

Curtis, who played such a clever game with the Locals last Sunday, is a member of both the Navon and Y. M. C. A.'s.

Pitcher Bert Iak of Louisville is again laid up with fever, which kept him out of the games in the beginning of the season.

Tom Parrott is outclassed, says The Cincinnati Enquirer. The big League is too fast for him. He might do in a minor League.

Bill Hassamer's injuries will keep him out of the game for some time. Meanwhile Hank Spies will play first base for Louisville.

Cy Young has already won more games for Cleveland this season than he won all of last year. His record is twenty-six games won out of thirty-five.

The Washington Club is not counting on Mercer or Boyd to do any more pitching this season, for their twisting arms are just as sore today as they were several weeks ago.

The Gallipolis team defeated the Huntington's Tuesday. The morning score was 14 to 10 and the afternoon 10 to 8. Bruner pitched one of the games. The afternoon game was an eleven inning contest.

Delahanty's 35 hits, with a total of 45 in 10 games, is a record indeed. He made 7 doubles, 1 triple and 4 home runs in these 10 games, and crossed the plate 18 times. He has made 40 doubles, 7 triples and 6 "bumers" this season.

The Wheeling (W. Va.) Baseball Club owns the town. Whatever may happen in the next few days to dislodge them from their lofty position, there is no doubt of the fact Wheeling thinks a heap of her team just at present. The great record of having won eleven out of twelve games, and three consecutive victories, has set all the fans going.

## OLD-TIME BASEBALL.

Report of a Game Played Here Twenty Years Ago.

"Brown's come!"

Dr. W. R. Hedin sends to THE LEDGER from his home at Owensboro the following account of a game played here in July, 1875, between the then famous Eckfords of this city and the Eagles Junior of Louisville. The report is copied from The Courier-Journal, and will be read with interest by the survivors of Mayville's ball club of twenty years ago:

"The Louisville boys were agreeably treated by Messrs. Clark and Pearce of Mayville, but the youth of their place will ever be remembered for the kind manner in which they threw stones and mud at the Eagle Junior President. That they may live long and prosper behind a stone wall is his sincere desire. The following is the score:

## KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unlimited export of silver, believing that it would involve the country in financial ruin. We believe in a sound currency and in the use of both gold and silver for exchange, provided always that a dollar in one metal is made precisely as valuable as a dollar in the other.

We favor a tariff so regulated as to protect the interests of all classes of our citizens upon articles that may be successfully manufactured or produced in this country, thus insuring good wages to the laborer and a home market to the producer; and in connection with this we favor the re-establishment of the duty of reciprocity.

We believe that such a system will defray every Government expense, gradually liquidate all indebtedness, restore public confidence and relieve to the rear the undue burden now pressing upon the currency. In view of the past financial history of the Democratic party, its devotion to the old state bank system and wildcat tendencies, we affirm that the Republican party can be more safely trusted to regulate the financial system of the Nation.

We favor an American policy which will protect Americans and American interests in any part of the world at all hazards and will sympathize with struggling Republics rather than quarantined monarchies.

## Uncle Sam's Shortage.

The deficit in the National Treasury for the first 63 days of the present fiscal year is \$13,113,854 00.

THE Tariff Law of "perfidy and dishonesty" is just one year old. It has made a record during this one year of existence which will be more conspicuous and significant in Democratic Tariff, our National history, than any other one year's record embodying the distinctive tariff and financial policies of previous Administrations.

It is a record of shame, of ineptitude, of inconsistency and of widespread disaster. The law was started upon its career as the alleged friend and benefactor of American trade and industry, but from the first day of its operation it has betrayed both of these interests into the hands of foreign foes.

The one great argument urged in behalf of this mongrel tariff measure was that it would open up American commerce and industry the markets of the world. This is the one test question of all Democratic tariff theorizing. But, like all Democratic theories, when put to the test of practical experience, the result is directly opposite in character to that which was predicted and promised. The present Tariff Law has definitely

failed to fulfill the mission to which it was appointed by its authors and advocates. Instead of opening the markets of the world to American trade and industry, it has opened wide the American market to competitive foreign manufacturers. Never before in our history has there been such an increase of competitive importations during a similar period of time as has been witnessed during the twelve months' operation and enforcement of the present Tariff Law.

In this fact is found the secret of the unexampled financial and industrial prostration to which the American people have been subjected under this Administration. It explains the falling off in exports, the paralysis of domestic enterprise, the congestion of money, the increase of the National debt, the growing delinquency of the Government's income, and the balance of trade that is now running so disastrously and alarmingly against this country. It also explains the tendency of gold to go out of the country at a time when normally we should be receiving gold in payment for food supplies sent abroad. The demonstration is complete in the mere statement of facts and figures relative to the practical operation of the present Tariff Law, but it becomes overwhelming in its power of conviction when these facts and figures are compared with those exhibiting the effect of the operation of the Republican Tariff. We present in this connection a table showing the imports of important articles during the ten months of 1893-94, under the Republican Tariff, as compared with the imports of the same articles in 1894-95 under the present Tariff. In studying this table it is necessary, however, to remember that the showing for woolens is only for six months during the two periods contrasted. The official figures are as follows:

	1893-94.	1894-95.	Per cent.
Woolens.....	\$2,982,510	\$7,584,711	253
Wool.....	\$2,979,972	\$4,947,441	166
Cotton goods.....	\$1,181,134	\$1,259,890	106
Iron goods.....	\$2,643,173	\$1,721,424	65
Other textiles.....	\$1,181,134	\$1,259,890	106
Leather goods.....	\$1,181,134	\$1,259,890	106
Art work.....	\$1,181,134	\$1,259,890	106
Glassware.....	\$1,181,134	\$1,259,890	106
Art work.....	\$1,181,134	\$1,259,890	106
China, earthenware, etc.....	\$1,181,134	\$1,259,890	106
Hardware.....	\$1,181,134	\$1,259,890	106
Stations.....	\$1,181,134	\$1,259,890	106
Hay.....	\$1,181,134	\$1,259,890	106
Total.....	\$10,906,781	\$85,305,738	778

Herein is exhibited the secret of the disaster that has come to American industries through Democratic Tariff legislation. The present Tariff has encouraged the enormous importations above indicated, and also the importations of those products which, by going into consumption, take the bread from the mouths of American workers. It is a singular coincidence that the importations of those articles which were specifically covered and encouraged in our various reciprocity agreements with foreign countries have decreased under the operation of the present Tariff. The marked increase has been in the imports of a strictly competitive character, and consequently means a disastrous blow at American labor.

The ruinous effect of the Democratic Tariff policy is especially seen in the fact that for the year ending with June, 1894, which was under the Republican Tariff, the total exports of domestic merchandise exceeded by about \$76,000,000 the exports for the year ending with last June, ten months of which were under the operation of the new Tariff. Thus the American people are paying today for a double difference, and that is the reason why gold is leaving the United States. No one can deny, whose denial would be worthy of consideration, that the present Tariff Law is the active cause of the vexatious drafts being made on the Treasury for shipment abroad.

The surest remedy for this injurious tendency is not to be found in bond issues nor questionable contracts with private banking syndicates, but in a tariff policy that shall prevent the great loss of employment to American laborers which inevitably results from the increased importations of foreign competitive merchandise.

## THE CAPITAL.

Exports of Spain to the United States Will Decrease.

While Her Imports From the Same Source Will Increase.

German Quarantine Regulations in regard to the importation of stock, dairy products and other articles from Prussia—Reigning's Mission in Washington.

WASHINGTON, Sept. 5.—Consul General Bowman at Barcelona, reports to the department of state that it now looks as if the exports of Spain to the United States would steadily decrease while her imports from the United States would increase. The decrease will be caused by the falling off in wine shipments, which, on account of duties, are now prohibited.

The department of agriculture has received from its agent in Berlin copies of the quarantine and prohibition regulations at present in force in the German empire, in regard to the importation of live stock and fresh meat. These regulations are as follows:

The importation of cattle and fresh beef is prohibited. The provincial presidents of the German government may order horses and sheep imported from the United States of America, to be held at the landing place for observation and inspection. Pork imported from the United States must be accompanied by a government certificate of inspection.

Attorney General Harmon Wednesday appointed J. M. Allen deputy warden of the Fort Leavenworth, Kas., prison, which was placed under the control of the department of justice by the last congress. Fifty soldiers detailed as guards at the prison on the recommendation of the attorney general, thirty-three have been honorably discharged from the United States army, and have been appointed as civilian guards at the prison.

Postmaster Heeling, of Chicago, was before the assistant attorney general for the post office department Wednesday, in the matter of the alleged lottery conducted by the Chicago Times-Herald. Mr. Heeling said this paper out of 100,000 tickets for one day, but its action was not sustained by the department. He is here, apparently, to renew the fight.

## FIRE IN BOSTON.

Railway Wharf and Freight Sheds With Contents Destroyed.  
BOSTON, Sept. 5.—The Boston & Albany extensive wharf and freight sheds in East Boston, known as Pieron, Grand Junction wharf, and the wharf destroyed by fire Wednesday morning. The sheds were filled with freight of various kinds, none of which was saved. The fire was a fierce one, and it was only by the hardest kind of work that the firemen prevented its spread to the other wharves and to buildings on Marginal street. Several dwellings were burned by sparks, but were not badly damaged. The boats hanging in the davits on the steamer Cephalonia, lying at the Cunard wharf, took fire and the steamer was towed to a place of safety. The loss can not be estimated at present, owing to the varied nature of the goods stored in the sheds, but it will be heavy.

The British bark Baradian, lying at the Boston and Albany wharf, was pulled out by tugs after one of her yards had taken fire. The steamer Burton, from Progresso, had just discharged 3,172 bales of hemp at the Albany wharf, and the cargo was burned with the other goods in the freight shed, which also included a large quantity of stone for export. The steamer Cephalonia was not damaged beyond the blistering of the paint and scorching of the rails and her starboard door was closed. The loss is estimated at \$200,000 falls on the Boston & Albany Railroad Company.

## REPEATING SHOT GUNS.

The Government Contracts for Fifty Winchester to Be Used in Guarding Prisoners.

WASHINGTON, Sept. 5.—The war department Wednesday contracted for fifty Winchester repeating shot guns. These arms are used for guarding prisoners, and the purchase was made necessary by the transfer of the Fort Leavenworth military prison to the department of justice. When the transfer was made the repeating shot gun in use there were turned over with other prison property. The shotgun is used by the army in guarding prisoners for the reason that the wound inflicted by it is slight, but it serves the purpose of stopping prisoners who endeavor to escape. The guns contracted for will be distributed to the various posts at which military prisoners are now confined.

# Did U?

Did you ever think that relatives or friends who have moved to distant places—gone West, perhaps, to "pull up" with the country—are always glad to hear from their "Old Kentucky Home"? And did it ever occur to you that a single copy of THE MAYSVILLE REPUBLICAN—the weekly edition of THE Public Ledger—contains more home news than you could embrace in a hundred ordinary letters? And did it ever strike you that you can send the paper to your relatives and friends for a whole year at less cost than you can write a letter every week? Besides, don't you think a year's subscription to THE REPUBLICAN would be a present highly appreciated by those at a distance? Suppose you try it and hear what they have to say on the subject.

# TOWER FELL

## Fatal Accident at the Illinois State Fair Grounds.

### The Disaster Was Due to the Softening of the Mortar in the Walls

By a Heavy Rainstorm the Night Before—Two Men Killed and Five Injured—One of Whom Will Die—The Tower Was in Course of Construction.

SPRINGFIELD, Ill., Sept. 5.—Wednesday afternoon the brick tower at the southwest corner of the new machinery hall at the State fair grounds collapsed, carrying down part of the roof and balcony and burying four men. The accident was due to the softening of the mortar in the walls by the heavy rainstorm of Tuesday night. The bricklayers had been taken off the building a few minutes before the collapse, having just finished it for the rafters. But for this fact the mortality would have been greater. The men at work were carpenters and plumbers.

The dead: Henry Hobson, plumber, aged 30 and married, crushed and suffocated; James Parks, carpenter, aged 30 and married, crushed out dead. The injured: Chas. Brownell, waterboy, aged 13, both legs and arms and several ribs broken—will die; Nelson Williamson, carpenter, aged 18, both arms broken; Samuel Davenport, box carpenter, badly crushed by falling bricks; Fred Beady, carpenter, badly bruised and arm broken; Jimmy Clancy, state carrier, leg broken.

It was at first supposed that four men were buried under the debris, but a force of men were sent at work shortly after the debris.

The damage to the building will amount to about \$2,000. Secretary Girard, of the state board of agriculture, was seen shortly after the accident, but did not have much to say concerning the cause, stating that the mortar had not time to dry, and the rain loosened the brick. The work has been rushed owing to the near approach of the fair, and the building has been carried up faster than the mortar could dry. They fell of their own weight.

The plumbers who were caught were working on the inside of the tower on the ground floor, all of the carpenters were on the balcony, and the building a section of which was carried down by the falling wall.

Williamson, whose legs were broken, received his injury by falling from the balcony. The other men near him clung to the rescue and received only minor hurts.

# THE TESTS

## Of Armor Plate and Strength of Our Warships.

WASHINGTON, September 5.—The naval ordnance board conducted a most important and successful test at Indian Head, Md., yesterday. Primarily it was a test of steel armor plate, but really and of greater importance, it was a test of the strength of the frames of modern warships, which it was claimed would not withstand the shock caused by heavy projectiles. The armor-plate test was Wednesday's experience demonstrated the fact that the frames of our warships are perfectly able to stand all ordinary demands. It was also demonstrated that the new 14-inch armor which the new battleships will be protected by, is not ordinary circumstances require the fire of any naval vessel against without serious damage.

# UTAH CONDENSED NEWS

## She Will Send a Gentle and a Mormon to the Senate.

### This Has Been Determined Upon by the Leaders of Both Parties.

A recent decision of the Utah Supreme Court threw down all barriers against women voting, and they will exercise the same franchise as men.

WASHINGTON, Sept. 5.—Utah will send a Gentle and a Mormon to the United States senate as a result of the election in November, said Lawrence Gardner, of the national democratic congressional committee, "whether the democrats or republicans be elected in the following campaign. This has been determined upon by the leaders of both parties in the embryo state and another factor will be the fact that both senators will be of silver persuasion. Consequently there is no much interest being taken in the election as to far the gentile is concerned, as there would be if Ephraim was wedded to his idols.

Chairman Cain, of the state central committee, dropped in at headquarters last week and seemed very sanguine of success at the approaching election. He based his hope mainly upon the fact that the republican voters in Utah are newcomers, and unmarried men in the majority of cases. On the other hand, the old settlers, Mormons and Gentiles, are mainly of the democratic faith. This includes the women, who will be permitted to vote in the state ticket, which includes members of the legislature who will choose United States senators and a congressman to the Fifty-fourth congress.

A recent decision of the supreme court of Utah threw down all the barriers as far as women are concerned, and they will have the same privilege as far as voting is concerned that their fathers, husbands and brothers do. Owing to the fact that this is a year of state elections, the congressional committee of our party do not propose to take an active part in the campaign. But the new state of Utah has attracted so much attention that it could not be ignored and hence the congressional committee has been doing pretty good service in that of Walter Thompson, principal, and Bill Mitchell, accessory, tried for the murder of Tom Brown on the steamer Hudson went to the jury at 3 p. m. # TRouble MAY ENSUE

More Men Put to Work in the Mines at Ishpeming, Mich., Sept. 5.—At 10 o'clock Wednesday morning the Chicago & Northwestern railway brought in a train of twenty coal cars for the miners. Half the number were left at Negeau, where they were escorted by troops to the Buffalo mines. Several hundred persons watched the arrival of the trains and the appearance of the men was the signal for cries of "wobbs," "black legs" and all manner of abusive epithets. The crowd followed the soldiers, but no point of view into their lines, being content to heap abuse upon them. The new men are now at work at the mines under the protection of the army. The meeting at Union park may ensue.

# One of the Post Office Robbers Caught

St. Louis, Sept. 5.—A special from Springfield, Mo., says that Charles Allen, one of the Springfield post office robbers, who broke out of the Ludlow street jail in New York, July 4 last, was caught at Springfield Wednesday.
